

MCFRS Driver Safety Bulletin

Collision Avoidance

Eight Signs for Intersection Safety

- ◆ Don't rely on warning devices to clear traffic
- ◆ Scan Left-Right-Left at intersections for potential hazards
- ◆ Begin to slow down well before the intersection and cover the brake
- ◆ Change the siren cadence 200 ft. from the intersection
- ◆ Scan intersection for possible passing options, avoid using the opposing lane
- ◆ Stop the vehicle if you cannot account for all lanes of traffic
- ◆ Establish eye contact with other drivers
- ◆ Treat each lane of traffic as a separate intersection

“DEDICATION TO EDUCATION”
